Industrial Museum Zeeland (main exhibition venue and location for urinal installation), based in a former sugar factory

The last remaining sex shop in the centre of Sas van Gent, an industrial town on the Dutch-Belgian border. It has two small cinema rooms (venue for film screening during opening weekend)

Route from museum to sex shop. It's a 5 minute walk.

View of Hal 2, inside the Industrial Museum

Mock-up of construction cabin placed inside Hal 2. The hall would be quite dark, the cabin illuminated with a spot light. Inside the cabin we would install the urinal (new, broken, clean, dirty... tbc...) with the video screen. The urinal could be illuminated with a spotlight, or we could put a bigger light inside the cabin.
